

San Maurizio d'Opaglio, 15/02/2019

SUPPLIER CONFORMITY DECLARATION

(according to ISO/IEC 17050-1)

Giacomini S.p.A. company, manufacturer of components for heating, cooling and sanitary distribution systems, located in Italy, San Maurizio d'Opaglio (NO), via per Alzo n. 39, whose design and production processes comply with the requirements of the UNI EN ISO 9001:2015 standard,

STATES that

the thermostatic mixing valves

R156-2

have been properly designed and manufactured.

They can be used in domestic sanitary systems, according to the following conditions:

- Maximum working pressure (static) : 10 bar
- Maximum working pressure (dynamic) : 5 bar
- Maximum inlet temperature (hot water) : 85°C
- Temperature regulation range: 30÷65°C
