

San Maurizio d'Opaglio, 06/09/2017

### **EU CONFORMITY DECLARATION**

(according to Annex IV of 2014/68/EU Directive)

**Giacomini S.p.A.** company, manufacturer of components for heating, cooling and sanitary distribution systems, located in Italy, San Maurizio d'Opaglio (NO), via per Alzo n. 39, whose design and production processes comply with the requirements of the UNI EN ISO 9001:2008 standard,

**STATES** that  
the ball valves

**R780G, R780PG, R781G, R782G, R783G**

have been properly designed and manufactured,  
using materials suitable to the distribution of dangerous gas and liquid hydrocarbons.

All models are DVGW approved for the use with gas,  
according to DIN EN 331:2016 standard, as per certificate no. NG-4312CP0519.

They also comply with the European Directive no. 2014/68/UE (previously 97/23/CE – PED) acknowledged by the Lgs. D, no.26 dated 15/02/2016 (and subsequent modifications and additions) published on the supplement of the Italian Official Gazette no.53 dated 04/03/2016.

It likewise confirms that:

the subject valves have been evaluated only with Table 6 of Annex II of the mentioned Directive, and although compliant, they are not subjected to CE marking, according to Art. 4.3.

The application ranges of these valves are the following:

- dangerous gas and liquid hydrocarbons
- Maximum operating pressure (MOP) with dangerous gas at room temperature (20°C):  
0,5 MPa (5 bar)
- Maximum operating pressure with liquid hydrocarbons at room temperature (20°C):  
1,2 MPa (12 bar)
