

San Maurizio d'Opaglio, 13/09/2022

### **EU CONFORMITY DECLARATION**

(according to Annex IV of 2014/68/UE Directive)

**Giacomini S.p.A.** company, manufacturer of components for heating, cooling and sanitary systems, located in Italy, San Maurizio d'Opaglio (NO), via per Alzo no. 39, whose design and production processes comply with the requirements of the UNI EN ISO 9001:20015 standard,

**STATES** that

the ball valves

**R910X021, R910X022, R910X023, R910X024, R910X025, R910X026  
R910X027, R910X028, R910X029, R910X030, R910X031**

have been properly designed and manufactured,  
using materials suitable to the distribution of water, non-dangerous gases and liquid hydrocarbons.

All models comply with the European Directive no. 2014/68/UE (previously 97/23/CE – PED),  
acknowledged by Lgs. D. no.26 dated 15/02/2016 (and subsequent modifications and additions),  
issued on the supplement of the Italian Official Gazette no.53 dated 04/03/2016.

It likewise confirms that:

- the procedure of conformity evaluation is Module A;
- according to the evaluation Table 7 of Annex II of the mentioned Directive, for the application with non-dangerous gases, the valves sizes 1 ½" and higher, are CE marked.  
The valves of the same ranges of the smaller dimensions are compliant too, but they are not CE marked according to Article 4.3.

The application ranges of the mentioned valves are the following:

Max. working pressure with water and non-dangerous gases at room temperature (20°C):

- 4,2 MPa (42 bar) from ¼" to ¾"
- 3,5 MPa (35 bar) from 1" to 2"
- 2,8 MPa (28 bar) from 2 ½" to 4"

Max. working pressure with fluid hydrocarbons at room temperature (20°C):

- 1,2 MPa (12 bar)

## **EU SUPPLIER CONFORMITY DECLARATION**

To the technical requirements provided for by Art.4 par.1, C), i) of 2014/68/UE Directive concerning the harmonization of the legislations of the Member States regarding the provision on the market of pressure equipment

(according to Annex IV of 2014/68/UE Directive)

**Giacomini S.p.A.** company, manufacturer of components for heating, cooling and sanitary distribution systems, located in Italy, San Maurizio d'Opaglio (NO), via per Alzo no. 39, whose design and production processes comply with the requirements of UNI EN ISO 9001:2015 standard,

**ATTESTS** that

the ball valves

**R910X009, R910X010, R910X011**

satisfy the essential safety requirements defined into Annex I.

They are "CE marked" to the effects of 2014/68/UE Directive and the conformity evaluation procedure is Module A.

The application range is the following:

- Dangerous gas and liquid hydrocarbons
- Maximum working pressure with dangerous gas at ambient temperature (20°C):  
0,5 MPa (5 bar)
- Maximum working pressure with liquid hydrocarbons at ambient temperature (20°C):  
1,2 MPa (12 bar)
