Il kit P146M è composto dal pozzetto portamagnete con guarnizione di tenuta per installazione sul defangatore e dal tappo portamagnete per inserimento nel relativo pozzetto. Per la rimozione del magnete dal pozzetto, occorre svitarlo in senso orario.

The P146M kit is composed of a magnet-holder housing with gaskets for installation on dirt separator and a magnet-holder cap for insertion in the relative housing. To remove the magnet from the housing, unscrew in a clockwise motion.

① Rimuovere il tappo presente sulla parte superiore del defangatore, svitandolo in senso antiorario.

② Inserire il kit P146M nella parte superiore del defangatore al posto del tappo, avvitandolo in senso orario.

① Remove the cap on the upper part of the dirt separator, by unscrewing in an anticlockwise motion.

② Insert the P146M kit in the upper part of the dirt separator in place of the cap, screwing in a clockwise motion.

The P146M kit is composed of a magnet-holder housing with gaskets for installation on hydraulic separator and a magnet-holder cap for insertion in the relative housing. To remove the magnet from the housing, unscrew in a clockwise motion.

① Rimuovere il tappo presente sulla parte inferiore frontale del separatore, svitandolo in senso antiorario.

② Inserire il kit P146M al posto del tappo, avvitandolo in senso orario.

① Remove the cap on the upper part of the dirt separator, by unscrewing in an anticlockwise motion.

② Insert the P146M kit in the place of the cap, screwing in a clockwise motion.

Avvertenza. Warning.

Il simbolo riportato sul tappo del P146M indica la presenza di campi magnetici, eventuale causa di danni ad apparecchiature elettroniche (compresi pacemaker) che siano poste in prossimità.

The symbol on the P146M cap indicates the presence of magnetic fields, which can cause damage to electronic devices (including pacemakers) that are placed in close proximity.
